vost marshal are extremely bizarre and interesting. The curiosities of human character are there exhibited in all their varietv. The present business of the marshals and their surgeons is the reception and examination of military substitutes, and of parties claiming exemption from the draft. About seventy cases per day are disposed of by each marshal. All have a busy time of it. At Captain Lehman's office yesterday we watched the process in its various and never falls. The Limitent is prepared from the recipe of Dr. Stephen Sweet, of Connecticut, the farmous bone setter, and has been used in his practice for more than twenty years with the must astend hingsuc-fact that the two infirmities most common more than twenty years with the must astend hingsuc-face that the two infirmities most common more than twenty years with the must astend hingsuc-face that the two infirmities most common more than twenty years with the must astend hingsuc-face that the two infirmities most common more than twenty years with the must be must be made in the most set of the must be mus AS AN ALLEVIATOR OF PAIN, it is unrivated by any preparation between the public, of which the most skeptical may be envinced by a single trial.

This Liniment will cure rapidly and radically, Kuze-mand Discourses of every hard, and in those ands of cases where it has been used it has never been known fection that is in its very nature incurable. Its effects may be palliated, but a ruptured man could not possibly perform a soldier's duty. Very bad cases of hemmorrhoids

> In examining substitutes the most rigid scrutiny is exercised. Many attempts at fraud are made. Men unfit for service sell themselves as substitutes, foolishly supposing themselves able to conceal their infirmities. They little know the ordeal through which they must pass. They entirely overlook the fact that a surgeon, in five minutes, can overhaul them as a watchmaker overhauls a watch. There is abundant attempt at fraud all around. Drafted men claim disqualification on the ground of disability, and men who want substitute money endeavor to conceal their ailments. Both call into practice the utmost skill of the surgeon making the examination.

> The substitute, upon presenting himself for acceptance, is taken into a room, where he disrobes himselt. The surgeon begins with his teeth, and examines his whole body down to his toes. The examination is even more searching than the examination of an applicant for a policy of insurance upon his life by a life insurance company's surgeon. If the front teeth are gone, so that a man cannot bite off a cartridge paper, he cannot be accepted for infautry service. He may do for a trooper. Every limb is examined. If the lungs are unsound, the temperament apoplectic, or the system wasting, the government does not want the man, either as a volunteer, a conscript or a substitute.

The applicant is made to throw himself into various attitudes. His toes and fingers must be practically perfect. He is made to pick up a grain of corn from the ground without hending his knees; to stand upon the points of his toes, and to show that he is narrow in his posture. If he stands is perfect in his anatomy. If he stands this test he is accepted, and a release is given to the man who brings him. The 8t substitute then receives his money, and is given into the custody of a guard. He is

"Why, it's stiff, that air leg is. It's been cuit nigh on two year."

" What makes it stiff ?" " Why, I reckon it's the rheumatis, doctor. That leg aint got no more joint in it than a crowbar."

"Oh, you needn't give yourselves no trouble. I kin jest roll up my trousers leg right here." "We don't do matters that way. Walk

into that room. We want to see that leg, perhaps we can oure n. We've performed some remarkable currs lately. The man didn't want to go into the room, but saw there a guard at hand likely to enforce the order. So he went in. He strip-

ped, exposing a very dirty hide to the sunlight. The doctor looked at the leg, and formed his own conclusions. He asked the mun more questions, and received positive answer that the limb was immovably strifened, the result of rheumatism. "You must take other, my man. I can

cure you of this stiffness," said the doctor. "I reckon you havn't got no right to do nothin' of that kind," said the man. "1 come here with a stiff leg. You can see I bain't fit for sogerin', no how, and you hain't got no right to pizen me, neitner." "We waive the right to prevent sneaks

of what you have been saying." The man grew very ugly. The sponge of other was brought and applied, but he pushed it away. Five men were required at last to hold him down, but the ether way applied, and the man at last rendered insensible. To accomplish this required a full bottle of ether. The surgeon was satislied the man was shamming. About his leg there was not the least rigidity. It was in all respects perfect. When he came to consciousness the man was told that until his substitute was procured he was considered a conscript. He was exceedingly surprised that his deception was unmasked. Another man followed him, who wished to be a substitute, upon whose limbs were

big nodules, like spavins upon a horse. He was an Irishman. The doctor saw at a glance that he was unsound, and dismissed

From the Philadelphia North American. The Curiosities of Exemption.

parties claiming exemption from the draft.

About seventy cases per day are disposed of by each marchal. All have a busy time of it. At Captain Lebman's office yesterday we watched the process in its various forms. The experience here shows the fact that the two infirmities most common among men in cities are hemorrhoids (piles) and rupture in its various forms. On account of these two affections fully threefourths of the applicants for exemption receive their discharge: Rupture is an af fection that is in its very nature incurable. Its effects may be palliated, but a ruptured man could not possibly perform a soldier's duty. Very bad cases of hemmorrhoids are equally disqualificatory for military ser-

In examining substitutes the most rigid scrutiny is exercised. Many attempts at fraud are made. Men unfit for service sell themselves as substitutes, fooliehly supposing themselves able to conceal their infirm ities. They little know the ordeal through which they must pass. They entirely overlook the fact that a surgeon, in five minutes, can overhaul them as a watchmaker overhauls a watch. There is abundant attempt at fraud all around. Drafted men claim disqualification on the ground of disability, and men who want substitute money endeavor to conceal their ailments. Both call into practice the utmost skill of the surgeon making the examination.

The substitute, upon presenting himself for acceptance, is taken into a room, where ne disroves himself. The surgeon begins with his teeth, and examines his whole body down to his toes. The examination is even more searching than the examination of an applicant for a policy of insurance upon his life by a life insurance company's surgeon. If the front teeth are gone, so that a man cannot bite off a cartridge paper, he cannot be accepted for infautry service. He may do for a trooper. Every limb is examined. If the lungs are unsound, the temperament apoplectic, or the system wasting, the government does

into various attitudes. His toes and fingers must be practically pariect. He is made to pick up a grain of corn from the ground without bending his knees; to stand upon the points of his toes, and to show that he is perfect in his anatomy. If he stands this test he is accepted, and a release is given to the man who brings him. The anbaticute then receives his money, and is given into the custody of a guard. He is then a United States soldier for three years.

"We don't do malters that way. Walk into that room. We want to see that leg, perhaps we can cure it. We've performed some remarkable cures lately.

The man didn't want to go into the room but saw there a goard at hand likely to enforce the order. So he went in. He stripned, exposing a very dirty hide to the sun light. The doctor tooked at the leg, and the man more questions, and received positive answer that the limb was immovably

stiffened, the result of rheumatism. "We weive the right to prevent sneaks and liars from evading the duty of every

of what you have been saying." The man grew very ugly. The sponge of ether was brought and applied, but he pushed it away. Five men were required at last to hold him down, but the other was applied, and the man at last rendered insensible. To accomplish this required a full bottle of other. The surgeon was satistied the man was shamming. About his leg there was not the least rigidity. It was in all respects perfect. When he came to consciousness the man was told that until his substitute was procured he was considered a conscript. He was exceedingly sur-prised that his deception was unmasked.

Another man followed him, who wished to be a substitute, upon whose limbs were big nodules, like spaying upon a horse. He was an Irishman. The doctor saw at a

The Star of the West was fired upon by the rebels January 9th, 1860, nearly two months before the close of Buchanan's administration, and this act of war was preceded by the secession of South Carolina and Mississippi, and the seizure of the principal forts and arsenal in the south. The truth of this proposition the democrats will not deny, indeed it is just what Bradford-N. Johnson, P. D. Wemple, they assert, therefore they cannot deny its converse. If the democratic party is disloyal the republican party is loyal. The loyalty of the one fixes the disloyalty of the other. There can be no neutrals in this war, Patriots and traitors are the only parties in this contest. He that is not for the Union is against it, and if Jeff. Davis is a traitor and against the Union, which is what none but the most hardened copperheads will deny, then the republicans are loyal and true to the Union, for they are a unit against him and all his coadjutors, and it is as clear as sunlight that any man, or any party, that antagonizes with the repub-Milton-W. Union of Loyal Democrats and Repub-licans.

A resolution, introduced by Mr. Banister of Beloit, was adopted by the republican Union senatorial convention, held in this city yesterday, which may be supposed to mean that the state republican Union convention should abandon its name and organization, and adjourn without making nominations. By referring to the resolution in another column it will be seen that it by no means bears such a construction, nor do we believe it was so understood. As one of the delegates to that convention, we understood it to recommend such liberal action in its nominations and platform, by the state convention, as shall tend to bring about a union of all loyal men in the support of one ticket at the approaching election. We think the state central committee in their call made the invitation broad enough for all such men to consider themselves invited to participate in the convention; the preservation of the Union, the enforcement of the constitution and the laws, the suppression of the rebellion, and the support of the administration in its efforts to attain these ends, is a platform wide enough for all. We presume the state convention will adopt the same liberal and. generous policy towards war democrats in the nominations to be made which it pursued at the last state convention. This, we understand, to be the signification of the resolution adopted at the convention yes-

It is said by some that we should drop the name of "republican." We dissent from this policy. It is conceding more than should be asked. The republican or Foord, Jr. ganization is a Union party already. It has now no other object than the suppression of the rebellion, by the best means that can be adopted. Its members include ninetenths of all who are at this time uncondi- ficers: tional Union men. Is it fair that one man should say to nine men, "give up your organization and come over to me as the price of my support to the Union cause"? We think this should not be asked, much less granted.

We all have a lively recollection of the kind of legislature which a "Union party". controlled, two years ago. It was said to reason that nobody was responsible for its resulted as follows: stamina enough to act independently. Let | D. Y. Kilgor received I, blank 5. ns make no such mistake again.

It may, possibly, be supposed that in our allusion to the legislature of two years ago we mean some disrespect to Mr. Bannister. who was a member. Not at all. We presame Mr. B. did the best he knew, tho' his constituents complained at the time that he usually followed the lead of H. L. Palmer, on political divisions, at the sacrifice of genuine Union principles.

The steamer Star of the West, which was sent by Buchanan to provision Fort Sumter, and which was sent to the mouth of the Rio Grande to bring off Stoneman's cavalry, then on the Texas frontier, and was cantured by the rebels, was among the vessels destroyed in the Yazoo recently, to prevent them from falling into our hands.

This is the vessel which Judge Orton, in

his speech in the copperhead state convention, charged the present administration with sending to Charleston for the purpose of provoking an attack by South Carolina and thus accomplishing the design of inaugurating a civil war in the Union. The Star of the West was fired upon by the rabels January 9th, 1860, nearly two months before the close of Buchanan's administration, and this act of war was preceded by the secession of South Carolina and Mississippi, and the seizure of the principal forts and arsenal in the south. If the Judge is not better posted in his law than in his history, the ninth circuit is poorly "provisioned" in its judicial department.

THE DISPOSITION OF CONSCRIPTS .- It is understood in army circles that the regiments in the army of the Potomse will first be filled from the ranks of the conscripts, and then successively Grant's, Rosecrans', and the army of the south will be filled to ed. the maximum.

The New York chamber of commerce has published a statement of the federal vessels..destroyed or bonded by confeder ato craisers; in all 150, measuring 61,429 tons, and valued, with their cargoes, at \$11,950,000.

Since the first of last February, Col. Wilder, of Rosecrans' army, has been twentyeight times through the rebellines, and taken 1,157 prisoners, about 4,000 horses, and a small army of slaves. In the last expedition he took about 600 prisoners, 800 horses and 250 slaves, killed 10 guerrillas, and mortally wounded Col. Gant. He lost one man, private Stewart, of the 17th Indiana. He has hang five and shot fifteen rebels, including a second lieutenant, caught with our uniform on, in accordance with the orders of Gen. Rosecraps. Wilder is chief of the famous mounted infantry.

J. H. Balch, Secretaries. W. C. WHITFORD. SENTENCES OF THE NEW YORK RIOTERS. -Wm. Watson, Michael Dodge, John Conway, Joseph Marshall, Patrick Sharen, John Hagan, and John Wilson have each been sentenced to the state prison for ten years for highway robbery. Others have been sentenced to imprisonment from two months to three years, and in some justances fines of \$250 in addition have been imposed. The aggregate time of imprisonment for the rioters already sentenced amounts to near one hundred years. Hefore the cases are all through with, it will doubtless exceed one thousand years. For the Janesville Daily Gazette, Is the Democratic Party Loyal?

Messrs. Editors: - In view of the vast consequences, both to us and to future generations, which hang upon the action of our state and national governments, present as well as prospective, the above becomes a very important as well as a very pertinent question; and inasmuch as the leaders of the democracy are denouncing the present party in power as false to the Union, to liberty and the constitution, and are calling upon the people to place them again in power, it is very necessary, to a proper solution of it, that their past action and present position, in reference to the should be fully understood by those called upon to decide upon them.

It will be wholly unnecessary, at this time, to enter upon the defence of the administration, or to parade any facts to prove the loyalty of the republican party; it follows as a matter of course if we prove the disloyalty of the democracy. This is perfectly obvious. The two parties are as antagonistic as fire and water, as opposite as the poles. If one is north the other must be south. If the democratic party is loyal and true to liberty, the republican party cannot be. The truth of this proposition the demo-

crats will not deny, indeed it is just what they assert, therefore they cannot deny its converse. If the democratic party is disloyal the republican party is loyal. The other. There can be no neutrals in this war, Patriots and traitors are the only parties in this contest. He that is not for the Union is against it, and if Jeff. Davis is a traitor and against the Union, which is what none but the most hardened copperheads will deny, then the republicans are loyal and true to the Union, for they are a The Daily News looks upon events in a unit against him and all his coadjutors, and totally different light. "The latest news," it is as clear as sunlight that any man, or any party, that antagonizes with the republican party in its efforts to crush this rebellion, must, by inevitable consequence, be point of their extended line." on the side of the rebels and against the

I do not assert that every democrat is a traitor, for there are a great many of them co-operating with the republican party in opposition to the rebels, but every traitor is a democrat and in favor of the democratic nominees. It may be that there are some men, loval at heart, who are now acting with the Wood, Ryan, Palmer, and Vallandigham democracy, and will support their nominces, but if so they are in a very unfortunate as well as dangerous position.

It is very unfortunate for them that the candidates of that party, as well as the party itself, are distinctly, emphatically and unmistakably committed to a course of policy that if successful must inevitably lead to the disruption of this government and the entire overthrow of republican institutions on this continent. It is exceedingly unfortunate if loyal men are so blind as not to see the awful abyes towards which solves and to the world, if they shall succeed, by their votes, in placing those wicked and disloyal men into power. If the democratic party succeeds in getting control of the northern states, at this time, one of two things must be the result. Either the rebfederacy, or the north will submit to their dictation, accept their constitution and estor which we have made such unparalleled sacrifices in this bloody contest. To the proof of this proposition, Messrs. Editors, Î will, with your permission, devote a few short articles. REPUBLICAN.

New York, Aug. 17.
The new steamer City of Washington, from Liverpool the 4th and Queenstown the

Antwerp, was at Pernambuco, after baving great and all important issues now pending, been captured by the Georgia and released on ransom. She reports that she saw the bark Conrad captured by the Alabama, on the 19th of June. She was armed by her, and not destroyed.

The ship Surrise, from Liverpool for New York, was, it seems, captured by the Florida, lat. 40 long. 68, and released on a ransom bond for \$60,000. The London Times, in an editorial upon

American affairs as depicted by the advices

by the Great Eastern and Asia, regards the federal successes checked and the confederates as having rallied and offered something of the old determined resistance. It says In point of fact, the so far successful federals are for the moment checked. Their victories have been inconsiderable, but they do not seem to see the way to follow them up. Such a difficulty is not likely to be lessened if they continue to press into the confederate country." Madison, Wis., Aug. 17. Special to Chicago Tribune.-Nine "big Indians," including Dandy, chief of the Winnebagoes, had a talk with Governor Sulomon to day, with the usual amount of peace-pipe smoking and hand shaking.

[Reported Exclusively for the Daily Gazette.] MORNING DISPATCHES. New York, Aug. 18:

Tribune special. - Deserters report a movement of a portion of Lec's army in the direction of Dumfries, for the purpose of flanking Gen. Meade on the left. Scouts report, however, all quiet as to any movement. The rebels are engaged in throwing up earthworks. Part of Longstreet's corps are at United States Ford. A proper disposition of our forces has been made to prevent any advance of the enemy. Everything continues quiet. The rumor that Lee had crossed a portion of his forces over the Rappahannock has been proved untrue by our cavalry. The army holds itself in readiness to move at a moment's notice. so that any attempt of Lee to advance will be promptly met: The Herald has the following:

Handdarters Army of the Potomac, ) Virgiam, Aug. 10th, 1803.

A contraband deserted from Lee's army resterday forencon and came within our lines. He reports, Wednesday morning the whole of Lee's army, with the excep-tion of A. P. Hill's corps, moved from Culpepper Court House by the Fredericksburg road. He also confirms the statement of the demoralization of the North Carolina, government will find enough on their hands | Tonnessee and Alabama troops. Those from North Carolina in Gen. Hill's corps have openly revolted and swear they will force the conscription, for it is quite evident fight no longer. The Mississippi troops that, if they cannot reinforce their armies, are clamorous to be sent home. The contheir invasion of the south must come to a traband deserter's story of the movements of rebel troops is confirmed by reports from our scouts.

On Saturday a large force of rebel infantry and cavalry, with some artillery, made its appearance on the south bank of the Rappahannock, above Falmouth. other story is they crossed at Fredericksburg Friday night, but I consider the report of their crossing highly improbable.

News from the front, this morning, is cheering, inasmuch as it points to the termination of our term of inaction. We are all momentarily expecting orders to pull Heavy firing was distinctly heard since

bood of Bauks or U.S. ford, or possibly as far away as Fredericksburg. The firing is rapid and constant. A battle is evidently going on. Large bedies of troops were moving, yesterday, marching by rail, and that our advance has come up with the enemy may safely be inferred from the noise this morning. New York, August 18.

A Fortress Monroe letter to the Herald enys: I um assured that Sumter is in a bad plight. Our beavy and long range guns are playing havor on its walls, and it is stated the side exposed to our batteries is already breached. A Washington special to the Herald says,

this morning the enemy made a demonstra-tion on the left of our army, and heavy cannonading ensued for some time. No ntelligence concerning the result reached Washington to day, but it is believed the movement was nothing more than a recognizance in force, for the purpose of feeling our position. Lee's army is reported to be moving in a southeasterly course, and there can be ro doubt that the region about Culpepper and Gordonsville will soon be eutiraly evacuated by the enemy.

The Times' special says: Marks, the deserier from Lee's army, came down the val-ley by way of Staunton, Harrisonburg and rrived at.

The London Herald esserts that England way. Imboden was at Strasburg. He had tablish a slaveholding despotism that will and will simply demand for Poland those artillery. The fight at Saickersville was great out every vestige of that liberty for treaty rights which Russia, in substance, between detached portions of different regments. Georgians and North Carolinians deserted, bringing with them their cross. They attacked Stuart's cavalry at Snicker's Ferry, routed them, and succeeded in getting to the northerners. Marks saw about-100 soldiers, Georgians, North Carolinians, Alabamians and Texans, on their way home, having openly deserted. The Bine Ridge mountains are alive with stragglers and deserters, who have their arms with them. So numerous are they that in traveling along the mountain side they have actually made paths. The provost guards stationed along the route are afraid to interfere with them on account of their numbers, save when traveling alone.

Advices received to night from the army of the Potomac, state that artillery firing was heard early this morning in the direction of Dumfries, supposed to have been occasioned by our cavalry ongaging Stuart, who has a small force of his cavalry in that

neighborhood. New York, August 17: The steamer America has arrived from Greytown. Gen. Chamorra, one of the revolutionary leaders of Nicaragua, was recently killed in a eltirmish near the frontier of Honduras. The war seemed about over. Report said Dr. Segur, of San Salvador, had been sent to the United States to raise a force of adventurers to aid in the war against the Central American states.

CINCINNATI, August 18. The Commercial's Cairo dispatch says that West Tennessee is cleared of gnerrillas. Col. Rowitt, commanding the brigade that went north, captured Col. Campbell, of the 23d Tennessee, 10 captains. I lieutenants and 30 privates. Col. Hatch, 2d Iowa, went to Paris and drove out Richardson's and Wilson's guerrillas. The 1st Alabama cavalry returned to Glendale with 100 prisoners. The 18th Missouri captured I captain and five privates in the vicinity of Ripley. Bragg is at Chattanooga with 25,000 men. He has lost 10,000 by desertion. Johnston's army, numbering 25,000, is at Brandon and Enterprise. It has lost one third by desertion. The mountains in northern Alabama are full of deserters from Johnston's and Bragg's armies. The gunboat Cincinnati has been raised.

Work and Prospects.

MORRIS ISLAND, August 7. Well, you are all expecting something from the department of the south, I suppose. The New York papers to the 3d instant are here, and have the siege much nearer completion than we have. It will be a week probably before we open. The big gans are hardly in position. feel confident of success, though much hard work is yet to be done. The engineers are busy night and day, and I have little time

for writing, as I am out from 7 a. m. to 6

or 7 p. m., and come in tired enough to sleep the balance of the twenty-four hours. Our works on the left of our line are under fire from Fort Johnson, and some near James Island butteries; but it is a long range for their mortars, and nobody is hurt by them. On the right, our batteries are within six hundred yards of Fort Wag. ner, and well protected. Our force is safe from any force the rebels can bring against us. The wonder is why they have allowed us to take such a position.

The sand hills are a mass of natural for tifications, and if the enemy had not been frightened out of them by the sudden open ing of forty or fifty guns from masked bat teries on Folly Island, we could hardly have forced them out-at least, not as easily as we expect soon to hammer them out o Fort Samter. The rebels are wasting a great deal of

ammunition on our working parties, with very trifling damage to us. They are evideptly puzzled, and we are quite willing they should be.

The Sumter, Johnston, and Cummings Point batteries have done most of the firing for the past few days.

To-day Johnston contented hersolf with

throwing four or five shells, and Sumter puffed seaward a few times, probably try-ing the range of some new guns. We bave two large Whitworth guns mounted that were taken from a blockade-runnerprobably 100 pounders. The Parrotts are the main dependence. Everything looks well for us, and all are working with a will.

DEATH OF A REBEL GENERAL.-Intelligence received at St. Louis states that the rebel Gen. Holmes, commander in Arkansas, died recently of delirium tremens.

T. Wright, of the twelfth battery, arrived at home last night, on furlough. A. Glasscott, of the same company, arrived several days since. MILTON ACADEMY .- The fall term of this

well-conducted institution commences next Tuesday, the 25th inst., under vary encouraging circumstances. The general class promises to be the largest, and the Normal class the fullest of any term since its organization. It is doing a good work in the cause of education. VOLUNTEERS FOR THE 12TH WISCONSIN

BATTERY,-All desiring to curoll themselves as volunteers in the 12th Wisconsin battery, can have an opportunity so to do by applying to Lieut. E. G. Harlow, who is now at home on leave of absence. Volunteers will be received by him until the 1st of September. Transportation given to Madison for muster, bounty and clothing, and recruits will be allowed to remain here until September 3d, at which time Lieut, Harlow will start to rejoin his command at Vicksburg. This will be a good opportunity to join a favorite branch of the service, and to become a member of a company having good officers and a fine body of intelligent private soldiers, most of them from this city.

Testimony of Respect.

Whereas in the wisdom of an inscrutable Providence, Albert N. Sprague, our companion in the Spring Valley Council of U. L. A., has been removed from earth-in order to testify our respect for him as a member, be it resolved: 1st, That in his death this League has

lost one of its purest patriots, and society one of its brightest ornaments. 2d, That we deeply sympathise with the

friends and relatives of the deceased. 3d, That one copy of these resolutions

be forwarded to the parents of the deceased, and another to the Janesville Gazette and Free Press for publication. By order of the Spring Valley C. U. L. A.

FUNERAL SERVICES .- Funeral services in commemoration of the death of John D. Valentine, will be held at the Methodist church to morrow evening, the Rev. H. C. Tilton preaching the sermon.

A PLEASANT CALL.-We have been highly gratified to-day by a call from Captain Scott, Co. F. 334 Wisconsin regiment, who is home on a furlough, and who, with the regiment, was actively engaged in all the exciting campaign which preceded the fall of Vicksburg. The captain has a clear and precise knowledge of all the movements in which the army were engaged, with the happy faculty of communicating it. He left his company well, and in good cheer. We are indebted to Capt. S. for several interesting "relics" of the war.

New Ice Cream Saloon. NOTICE FOR SEPT, 1863.

It will be remembered that Dr. Price has whited Janesville for three years, restored to health many authoring from affections of the Lungs, Throat, Liver, Heart, Kidneys, Rheumatism, Catarrh, Dyspepsis, Fitz, Asthms, Scrofula, Dropsies, Formic Complaints, and other diseases called chronic, most having disputred of a recovery. To the cure of chronic diseases in their various forms and stages, Dr. Price devotes his whole attention. He is not roviving an old worn out system and rounded years ago by speculative adventurers, but a motivad of treatment of 20 years standing, and still pursued in the east with unparalleled success. A system founded on truth, no trilling sacrificing of life to experiments. Knowledge we contend for, not speculation, experiment and quackery: Wouse no infersis or destructive agent, nor examat the energies nor injure the constitution, nor mate sick to make well, tear down to build up. Ye invite honorable investigation, feeling that our cause is just. Those sick and discouraged call unou us—advice gratuitone. Our Philosophy of practice is founded on the Laws of Nature. Our theory of disease the theory of Experience and Evidence—our flatticis Medica the boundeds forest? DURING the present season, I will keep a supply of Superior Ice Cream, at the seloon formerly known as the Western Bakery, West Milwankee street. This Saloon has been recently implicated for this object, in a neat and cheerful munner, and parties calling will be promptly and pleasantly served.

Orders for Family Use will be fitled at any time on short previous notice.
A general supply of choice CONFECTIONERY and
FRUIT always on hand:

200 ACRES of land 1½ miles from Magnolia to Prairie, under good state of cultivation, well untored, with dwelling home and other buildings thereon, and 40 acres of timber. I will tell a part or the whole of said lands for a small payment down, the balance can run for a term of years. Enquire of J. C. METGALS.

in Carriage Trimming, Boot and Shoo Making, Har ness Making, stc., etc. They are of extra size, with an arm long enough to take under it and stitch the larg est sized dashes. There is scarcely any part of a Trimmera stitching that cannot be better done with them that by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inchs long, and the shuttle will hold six times the quantity of thread. The large machines work as fas We would ask for our Letter A machines, the special attention of Yest Makers and Dress Makers, and all

Ji Wo have made the above Reduction in Prices with the two-fold view of benefitting the public and ourselves The public have been swindled by spurious much neemed in imitation of ours. The metal in them, from the tron casting to the smallest piece, is of poor quality. Their makers have not the means to do their wirk well. They are hid away in secret places, where it would be impossible to have at their command the proper ine-chanical appliances. It is only by doing a great busi-ness, and having extensive manufacturing establish ments, that good machines can be made at moderate prices. The best designed machines, finally Made, are always hable to get out of order, and are sure to con-considerable trouble and money to keep them in repair The qualities to be looked for in a machine are: certainty of correct action at all rates of speed, sumplies by of

with the least labor. Machines to combine these essen-tial qualities, must be made of the best metal and finished to perfection. We have the ways and means, on a grand scale, to do this. The purchasers of muchines, whose daily broad it may concern, will find that those having the above rates of speed, but last long in the finest possible working order. Our machines, as made by us, will carn viore money with less labor than any others, whother infinitation of ours or not. In fact, they are cheaper than any other muchine as a gift.

Our No. 3 machines are especially adapted to all inds of light and heavy

in Carriage Trimming, Boot and Bhoe Making, Har ness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the larg est sized dashos. There is scarcely any part of a Trim-mura's stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines sall inch-es long, and the shuttle will hold six times the usua quantity of thread. The large machines work as fast

We have made the above Reduction in Prices with the two-fold view of bone intug the public and ourselves. The public have been swindled by spurious machines made in initiation of ours. The motal in them, from the iron casting to the smallest piece, isof poor quality. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be misde at moderate prices. The best designed machines, Budly Made, are always liable to get out of order, and are store to cost considerable trouble and money to keep them in repair. The qualities to be looked for in a machine are certainty of correct action at allivates of speed, timplicity of contribution, great durability and regulaty of operation, with the inext alor. Machines to combine these essential qualities, must be made of the best medial and finished to perfection. We have the ways and manns, on a grand scale, to do this.

The purchasors of machines, whose daily bread it may concern, will find that those having the above qualities not only work wail at rapid as well as slow rates of speed, but last long in the faces possible working order. Our machines, are made by us, will carnow more with test labor than any others, whether infinition of ourse one. In fact, they are chasper than any other machines as a gift.
